Hobby Wholesale- We have a special wholesale price for the Hobbyist or small dealer who buys 12 or more plants at a time. These may be assorted and you should figure each plant at its wholesale price. Our Hobby wholesale discount is not quite as large this year as last year but we will pay the postage and this should more than make up the difference.

Plants are in 2 1/4" pots and are mostly in bud or bloom. We send the best on hand. This size recovers quickly from shipping shock.

Please list a few second choice to avoid delay in case we are short.

We raised some seedlings of our hybridizing that we thought worth propagating and placing on the market. Among them are a few Ruffled Queen and DuPont seedlings that we think are outstanding in color of bloom, size or exceptional blooming habit. You will find them listed along with other fine varieties in the following lists.
